

**INSTITUTE
FOR RESEARCH
IN BIOMEDICINE**

IRB Barcelona JOB OFFER: Ref CF/15/01

The Mass Spectrometry Core Facility is seeking a Research Officer to cover a seven months position (beginning end of February 2015)

DUTIES

- Mass Spectrometric analysis of proteins and biomolecules by electrospray-based techniques using high resolution mass spectrometers and HPLC, UPLC, nanoUPLC (1D and 2D) and chip-based infusion devices.
- Sample handling, calibration and maintenance of the equipment and unit, attendance of users, checking inventory and performing laboratory purchases.
- Data analysis and assistance in analytical method development for specific applications.

CANDIDATE REQUIREMENTS

We are looking for a highly motivated and organized candidate with good communication skills, capable of working in group, and with a high degree of work autonomy.

The following aspects will be preferred and will be taken into account when selecting candidates:

- Bachelor degree in sciences and previous experience in mass spectrometry and proteomics.
- Flexibility and capability of working independently and in a team.
- Good skills in proteomics/mass spectrometry software and search engines and Microsoft Office packages.

CONDITIONS

Deadline: January 31st, 2015.

Starting date: end of February 2015.

HOW TO APPLY

All applications must include:

1. A presentation letter
2. A full CV including contact details.
3. Two contacts for further references.

Please submit your application by email to the following address irbjobs@irbbarcelona.org indicating the offer reference in the subject message.
